

PROPERTIES & INSPECTIONS

Whether you are a small engine company or the Fire Marshal, ESO Properties and Inspections keeps track of the data you need according to your systems and processes.

Made for:

FIRE

AN INTERFACE THAT MAKES SENSE.

Leave no stone unturned with an intuitive workflow that walks you through each inspection step by step.

MORE CODES, MORE FLEXIBILITY.

Unlimited code sets offer the flexibility you need to complete a variety of inspections.

SCHEDULING MADE EASY.

Easily assign and schedule future inspections to keep your department aligned.

IMPROVED SITUATIONAL AWARENESS.

Get the pre-plan data you need most to understand how to best respond to an emergency, including the property, building, and occupant hierarchy.

CHECKLISTS, YOUR WAY.

Create checklists aligned to your department's standards. Properties and Inspections is configurable to your internal processes so you can create checklists exactly how you need them.

CAPTURE KEY DATA.

Document violations, attach photos and collect signatures on-site. You'll have all of the data you need for a complete inspection.
