# THE NEXT GENERATION FIRE RMS

eso

ESO Fire RMS offers a fully integrated platform to help your department easily document incidents, enhance department operations and analyze the data you need to improve community safety. From the initial call to the final report, and everything in between, ESO Fire provides you with the powerful tools you need to get the job done.

Learn more about ESO Fire RMS at eso.com/fire or call us at 866-766-9471.

ESO FIRE INCIDENTS

Save valuable time and reduce errors while meeting reporting requirements. EHR automatically imports NFIRS data into Fire Incidents so you never have to document the same call twice. Keep health and safety top of mind with critical incident and exposures tracking.

ESO PROPERTIES AND INSPECTIONS

From a basic to complex inspection, Properties and Inspections offers the flexibility and insight you need to keep people and property safe. Integrations with NFIRS lets you easily access property value and previous incident history.

ESO ACTIVITIES

Activities tracks community risk reduction efforts, events, and operational tasks, and creates a daily task list and station log, all within a single application. Report on community risk reduction, highlight your value to the community, and keep your station organized.

ESO PERMITS

Ensure compliance with safety ordinances and regulations in your community with Permits. Easily issue permits, track expiration dates and configure permitting checklists.

ESO HYDRANTS

Record hydrant data, flow tests, service status, and bulk schedule maintenance tasks. Integrations with Properties automatically updates your preplans with the most current information, allowing you to arrive on scene prepared.

ESO EHR

EHR makes it easy to produce quality EMS clinical documentation. Yet it's so advanced, it actually gives you back more data than you put in. Plus, it's integrated with our entire family of products.

ESO SCHEDULING

Ready to make complex calendars a thing of the past? Meet Scheduling. Flexible, scalable employee scheduling designed to make scheduling intuitive and cost effective.

ESO ASSET MANAGEMENT

Achieve a higher level of readiness, maintain compliance, and keep your team aligned with asset management software designed for the 21st century.

ESO CHECKLISTS

Go beyond the spreadsheet and paper checklists with Checklists. Our dynamic checklists provide easy-to-use digital checklists to capture current condition of vehicles, equipment, places and people.

ESO ANALYTICS

Understand performance like never before. With one-click access to clinical and operational metrics, core measures and more, Analytics gives you the power to transform data into actionable insights.

ESO PERSONNEL MANAGEMENT

Manage your department's records with ease. Personnel Management records and stores personnel information, training courses, education history, exposures, immunizations and more within a single application.

COMPLIANT WITH YOUR STATE'S REQUIREMENTS.

ESO's Fire RMS meets or exceeds all NEMSIS Version 3, NFIRS and state-level requirements —
no more worrying about compliance.
