ESO FIRE INCIDENTS

Save valuable time and reduce errors while meeting reporting requirements. ESO EHR automatically imports NFIRS data into ESO Fire Incidents so you never have to document the same call twice. Keep health and safety top of mind with critical incident and exposures tracking.

ESO PROPERTIES AND INSPECTIONS

From a basic to complex inspection, ESO Properties and ESO Inspections offer the flexibility and insight you need to keep people and property safe. Integrations with NFIRS and NERIS let you easily access property value and previous incident history.

ESO ACTIVITIES

ESO Activities tracks community risk reduction efforts, events, and operational tasks, and creates a daily task list and station log, all within a single application. Report on community risk reduction, highlight your value to the community, and keep your station organized.

ESO PERMITS

Ensure compliance with safety ordinances and regulations in your community with ESO Permits. Easily issue permits, track expiration dates and configure permitting checklists.

ESO HYDRANTS

Record hydrant data, flow tests, service status, and bulk schedule maintenance tasks. Integrations with ESO Properties automatically updates your preplans with the most current information, allowing you to arrive on scene prepared.

ESO EHR

ESO EHR makes it easy to produce quality EMS clinical documentation. Yet it's so advanced, it actually gives you back more data than you put in. Plus, it's integrated with our entire family of products.

ESO SCHEDULING

Ready to make complex calendars a thing of the past? Meet ESO Scheduling. Flexible, scalable employee scheduling designed to make daily schedules intuitive and cost effective.

ESO ASSET MANAGEMENT

ESO Asset Management makes tracking all of your assets a breeze. Achieve a higher level of readiness, maintain compliance, and keep your team aligned with asset management software designed for the 21st century.

ESO CHECKLISTS

Skip the paper checklists and keep your agency up to date in real time. EESO Checklists are fully configurable and allow your organization to track only the information that matters to you.

ESO INSIGHTS AND ESO ANALYTICS

Understand performance like never before. With a single click, you get access to clinical and operational metrics, core measures, and more. ESO Insights and ESO Analytics give you the power to transform data into actionable information.

ESO PERSONNEL MANAGEMENT

Manage your department's records with ease. ESO Personnel Management records and stores personnel information, training courses, education history, exposures, immunizations and more within a single application.

Compliant with your state's requirements.

ESO's Fire RMS meets or exceeds all NEMSIS Version 3.5, NFIRS and state-level requirements – no more worrying about compliance.
