# ANALYTICS

eso

Unlock a new level of pre-hospital data in your hospital system. Analytics gives you instant, flexible access to data for all levels of reporting.

Made for:

HOSPITAL

INCLUDED WITH HDE.

Analytics is included with ESO Health Data Exchange (HDE), so you'll always have the power of data at your fingertips.

MAKE COMPLEX DATA UNDERSTANDABLE.

With fast, easy access to EMS-related clinical and business-line metrics, core measures and more, Analytics lets you tell your story in a way anyone can understand.

TAP INTO EMS INSIGHT.

Gain a powerful view of EMS data for agencies using ESO's EHR platform. View EMS volume by agency, time-to-12-lead, time-to-STEMI alert, trauma scene times, and more.

DRILL DOWN INTO YOUR DATA.

Sometimes you need a high-level summary, and sometimes you need deeper detail. Analytics does both: Just drag the sliders to customize your view.

CREATE REPORTS THE WAY YOU NEED THEM.

Meet your business line, hospital or corporate reporting requirements with dozens of prebuilt reports you can customize easily. Or create new measures from scratch.

In this data-driven healthcare environment... this robust system is simply revolutionary.

EMS WORLD INNOVATION AWARDS JUDGES, IN PRONOUNCING ESO ANALYTICS A WINNER.
