

PARTNERING FOR SUCCESS

ESO + WESTERN VIRGINIA EMS

Did you know that you have access to a state-funded ePCR solution from the Western Virginia EMS? ESO Electronic Health Record (EHR), the industry's leading ePCR, is state-funded for agencies across Virginia and designed to equip EMS agencies with required functionalities for collecting, submitting and analyzing patient care data.

ESO EHR

ESO EHR makes it easy to produce quality EMS clinical documentation. Yet it's so advanced, it actually gives you back more data than you put in.

ESO SCHEDULING

Ready to make complex calendars a thing of the past? Meet ESO Scheduling. Flexible, scalable employee and volunteer scheduling designed to make scheduling intuitive and cost effective.

ESO ASSET MANAGEMENT

Achieve a higher level of readiness; track equipment, manage repairs, and schedule maintenance with software designed for today's EMS agencies.

ESO ANALYTICS

Understand performance like never before. With one-click access to clinical and operational metrics, core measures and more, Analytics gives you the power to transform data into actionable insights.

ESO PERSONNEL MANAGEMENT

Manage your department's records with ease. Personnel Management records and stores personnel information, training courses, education history, exposures, immunizations and more within a single application.

ESO HEALTH DATA EXCHANGE

Receive outcome data from your hospital partners and reshape the way you deliver patient care. ESO HDE delivers real-time, bidirectional data between EMS and hospitals.

ESO ACTIVITIES

ESO Activities tracks community education, events and non-response, operational tasks all in application. Stay organized and report on how you make a difference in your community

ESO FIRE RMS

Meet the most demanding and evolving needs of your fire department with ESO Fire RMS, including Incidents, Personnel Management, Scheduling, Properties and Inspections, Activities, Permits, Asset Management, Checklists and Hydrants.

NARCBOX

NarcBox offers durable controlled substance storage with quick yet secure digital entry options and robust reporting capabilities. Be confident in your security, trace substance access, and maintain agency-wide accountability.

ESO CHECKLISTS

Go beyond the spreadsheet or paper with ESO Checklists. Our dynamic application provides easy to use digital checklists to capture current condition of vehicles, equipment, places and people.

ESO ALERTING

ESO Alerting delivers a configurable application for EMS and hospital administrators to securely and efficiently communicate during time sensitive emergencies.

ESO INVENTORY

Manage your consumables, reduce waste, and stay on top of your inventory processes.
