

PREHOSPITAL CARE  
RESEARCH FORUM

UCLA

# RESEARCH FORUM

## May 24-26, 2022

*Presented by ESO and the UCLA Prehospital Care Research Forum (PCRf)*

### Accelerate EMS Research

The ESO/PCRf Research Forum brings together clinical leaders, researchers, and data analysts to accelerate EMS research with the goal of improving community health and safety through the power of data. During the three-day workshop, Forum participants will:

- Learn the basics of EMS research, from defining a question to the parts of a peer-reviewed manuscript.
- Refine research ideas to assure that the question/goal is clear.
- Explore required data elements to determine viability and define the data query.
- Work with a clinical mentor and statistician to create an analysis plan to answer your research question.
- Start development for the research abstract and framework.

### Event Details

**START** Tuesday, May 24th at 2 p.m.

**END** Thursday, May 26th at 1 p.m.

**LOCATION** ESO Offices in Austin, Texas.

**LODGING** Details related to location and suggestions for lodging will be provided upon registration.

**COST** There is no cost to participate thanks to generous support from the GMR Foundation for Research and Education. Attendees will be responsible for their own travel and lodging.

PREHOSPITAL CARE  
RESEARCH FORUM

UCLA

# FORUM LEADERSHIP & FACULTY

The ESO Research Forum is co-presented by the Prehospital Care Research Forum (PCRF) and ESO, a leading provider of software for EMS, fire departments and hospitals.

## Faculty\*

**David Page, MS, NRP**, is Director of the Prehospital Care Research Forum at the University of California, Los Angeles. He is also a field paramedic with Allina Health EMS in Minneapolis/St. Paul, MN, and a member of the JEMS Editorial Board.

**Remle Crowe, PhD, EMT**, is the Director of Clinical and Operational Research at ESO. She has written numerous peer-reviewed research articles on a broad range of topics including workforce health and safety, stroke screening, and pediatric prehospital care.

**Antonio Fernandez, PhD, NRP**, is a Research Scientist at ESO. He has worked extensively with state-level EMS data, and his research spans a broad range of topics including prehospital ketamine administration and trauma triage.

**Scott Bourn, PhD, RN, FACHE**, is VP of Clinical Quality & Impact at Securisyn Medical, ESO Research Leadership Group Chair, and Co-Director of the NAEMSP Quality & Safety Course. His work is focused on defining, measuring, and improving patient outcomes/experience.

**Brent Myers, MD, MPH, FACEP, FAEMS**, is an internationally-recognized expert in EMS, particularly as it relates to systems of care, performance improvement, and population management. He is the Chief Medical Officer at ESO.

*\*Subject to change based on availability.*

## Participating in the Forum

The Forum is ideal for clinical leaders and front line clinicians with innate curiosity and an itch to launch their next (or first!) research project. To ensure the most beneficial experience, **participation will be limited to 20 people**. A waitlist will be opened once we reach capacity.

Thanks to generous support from the GMR Foundation for Research and Education, the Forum is offered at no cost to participants. Participants are responsible for their own travel and lodging. Lunches are included.
