## Modern Asset Management for Today's Emergencies

### Keep it simple in a single platform.

Take the guesswork out of managing assets with a complete catalog of inventory, consumables, tickets, maintenance plans, and costs to your department.

### Plan and budget for the future.

Identify the lifetime value and depreciation of your assets to improve departmental planning and forecasting, inform budget decisions, prepare for audits, decrease liability, and plan for future growth.

### Improve department accountability.

Assign work orders, track tickets, and expenses to stay in tune with the operational needs of your department.

### Some favorite features in the single platform:

- ✓ Built-in dashboards
- ✓ Rich data sets
- ✓ Real-time reporting
- ✓ Complete catalog of everything you own
- ✓ Work tickets
- ✓ Station and location filters
- ✓ Maintenance plans, tracking, history, and costs
- ✓ Vehicle and equipment data fields
- ✓ Configurable user management and role assignments
- ✓ Unlimited data storage
- ✓ Historical data and trends

➔ **Maintain care of your assets like you do your patients.**
