

eso EMS1 & FireRescue1 ACADEMY

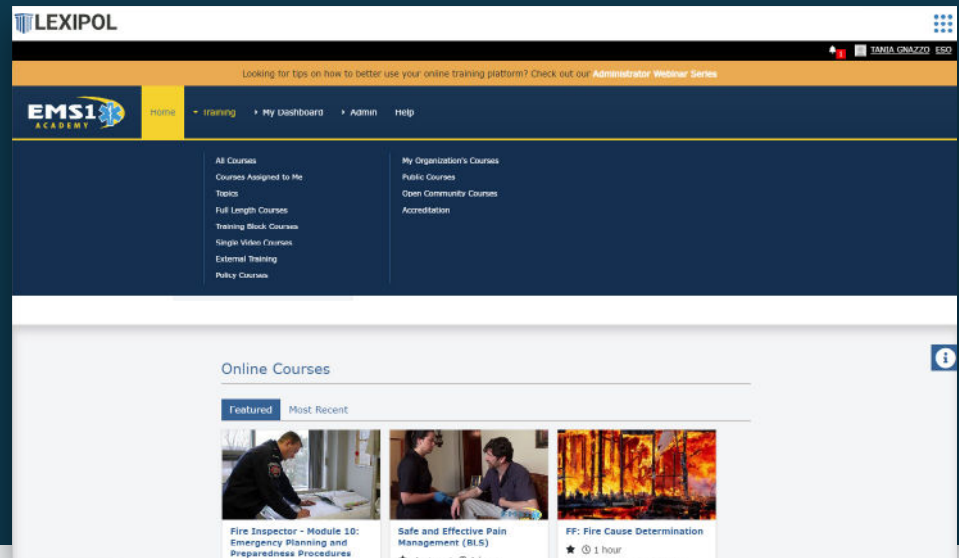

Sharpen your skills with EMS1 and FireRescue1 Academy.

Our partnership brings you more than 350 hours of training to help your team improve performance and keep communities safe.

Made for:

EMS

FIRE

Improve your training process.

No need to reinvent the wheel when setting your annual training curriculum. Select the class paths that match the needs of your department and you'll be ready to learn.

Stay on track.

Assign coursework to your crew and track progress from our user-friendly dashboard, or add on the Personnel Management integration to see class completions directly in ESO.

Courses for the real world.

Access over 1,100 training courses and videos with 440+ CEUs aligned to CAPCE and NFPA standards. You'll always know the latest protocols.

Train anywhere, anytime.

Because the curriculum is available on any device, you can train anywhere at any time. If you get a call in the middle of training, you can pick up right where you left off the next time you're free.

Configure coursework to your needs.

Tailor coursework to your agency's requirements with our configurable platform. Use videos, quizzes, and other tools to ensure your team develops vital skills.

Document external training.

Recording courses taken outside of EMS1 and FireRescue1 Academy is a breeze. Any training classes taken externally can be easily entered into the software and saved in our records, so everything stays in one place.
