# Unlock the future of EHR right at your fingertips.

From adding vital signs hands-free to quickly scanning identification and medications, the new ESO Electronic Health Record (EHR) native iOS app is designed to bring the ultimate **ease and efficiency** to your daily work – so you can stay focused on the job at hand.

Smart scanning technology.

Quickly scan and populate patient demographics and medication details with advanced OCR (Optical Character Recognition) technology using your device's camera.

Hands-free workflows with Siri.

Use Siri for voice commands to manage incident times, vital signs, and flowchart entries. Plus, streamline and reduce manual data input with speech-to-text entry.

Effortless multitasking.

Open two EHR windows simultaneously for more efficient data entry and navigation within the same patient record.

Comfortable viewing with dark mode.

Switch to dark mode for a strain-free viewing experience in low-light environments – perfect for night shifts or dimly lit rooms.
