eso® FIRE INCIDENTS

**NERIS V1 DATA EXCHANGE COMPATIBLE**

Confident Compliance and Intuitive Reporting

Eliminate tedious manual data re-entry from 911 calls and streamline your compliance to the NERIS standard while easily meeting all new requirements of the new system.

Made for:

FIRE

Fast to learn — and even faster to use.

Designed specifically for firefighters, ESO Fire Incident's interface is intuitive and straightforward, ensuring ease of use and speed.

Automated NERIS submission.

Take the hassle out of submitting data to the state – ESO does the work for you automatically.

Track exposures.

Keep your crew safe with built-in features for recording exposures and documenting critical incidents.

Document with confidence.

ESO Fire Incidents exclusive progressive validation sequence leads the user through the report, making it easy to see what required elements are missing.

No more redundant data entry.

Stop wasting time re-entering the same data. With ESO Fire Incidents, you'll enter information once, and your EHR and NERIS reports will be created for you.

From a company you trust.

At ESO, we understand how first responders work because we've worn the uniform ourselves. Our products are so intuitive, you'll feel like they were designed by you.
